Medical Services at St. Vincent Family Services

Our Medical Services Team is here for your family.

Our health professionals identify, address and safely treat psychiatric and medical emergencies in children and adults.

Our team understands that families play an important role in addressing healthcare needs, so we include your family in each step of our care continuum.

We use an integrated healthcare approach to treatment, providing:

- Access to an on-site Pediatric Psychiatrist
- Access to nursing care 7-days a week, in person or over the phone
- A focus on treating the whole person, both mentally and physically

Medical Services at SVFS include:

- Psychiatric evaluations
- Pharmacologic management
- Ongoing follow-up visits

Our health professionals are equipped with years of pediatric and behavioral healthcare experience and work collaboratively to deliver care with an increased sensitivity to child development. Our diverse team of health professionals includes:

- Registered Nurses (RN's)
- Licensed Practical Nurses (LPN's)
- Pediatric Psychiatrist
