The Center follows FASB guidance on accounting for uncertainty in income taxes, which addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under this guidance, the Center may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the largest benefit that has greater than 50% likelihood of being realized upon ultimate settlement. The guidance on accounting for uncertainty income taxes also address de-recognition, classification, interest and penalties on income taxes, and accounting in interim periods.
